

Container Creator

유현우

소개

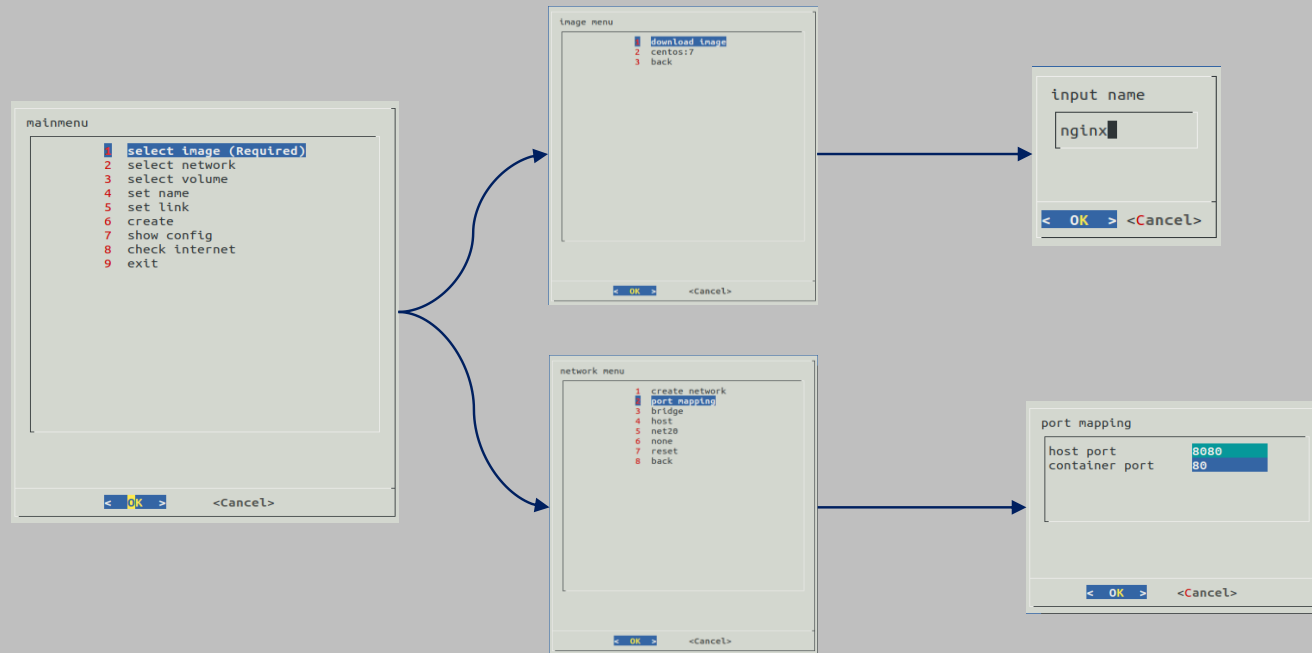

스크립트 실행

메인화면

Container Creator는 docker container를 쉽게 생성할 수 있도록 GUI를 제공하는 도구입니다.
container의 생성 뿐 아니라 container 생성에 필요한 image, network, volume 등을 생성하는 기능 또한 제공합니다.

메뉴

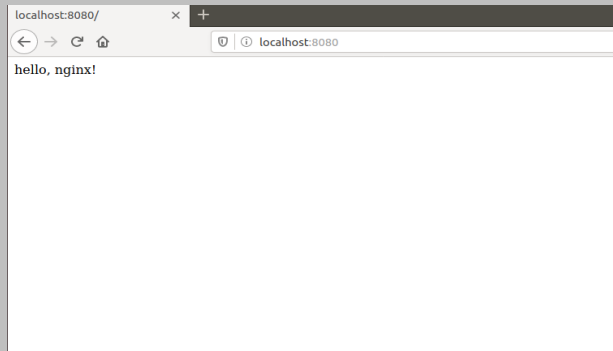

메인화면에서 하위메뉴로 이동하여 각 구성요소를 설정할 수 있습니다.

nginx container 생성

```
image : nginx:latest  
network : port mapping(8080:80)  
volume : /www/:/usr/share/nginx/html  
name : nginx01  
hostname : myNginx  
no link set  
  
internet : connected
```

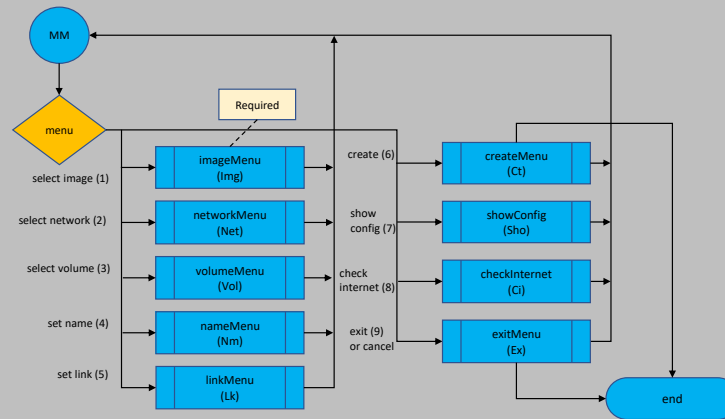

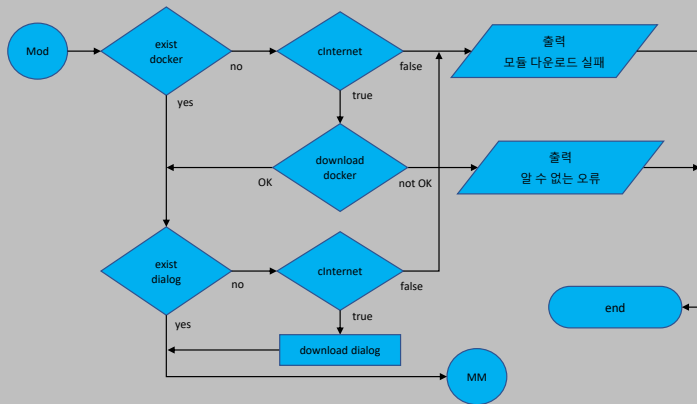

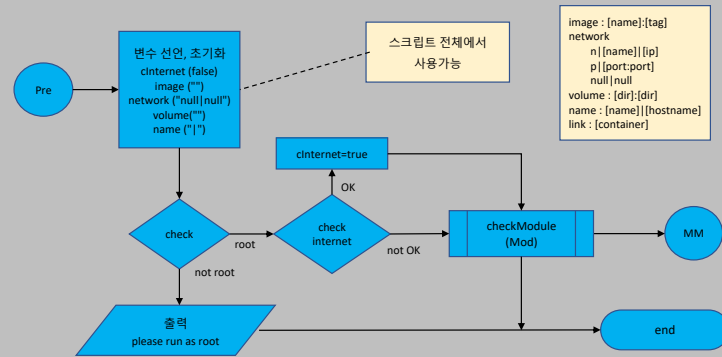

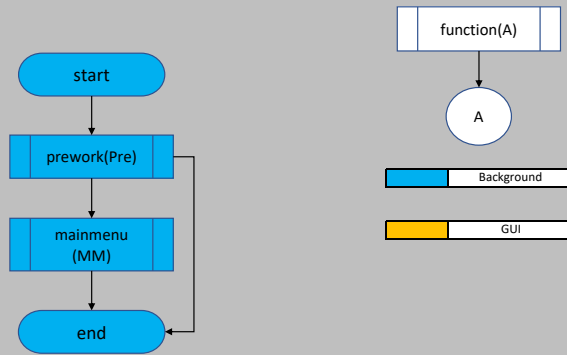

nginx container를 생성하는 구성내용입니다.

```
root@pc:/www# echo "hello, nginx!" > index.html
```

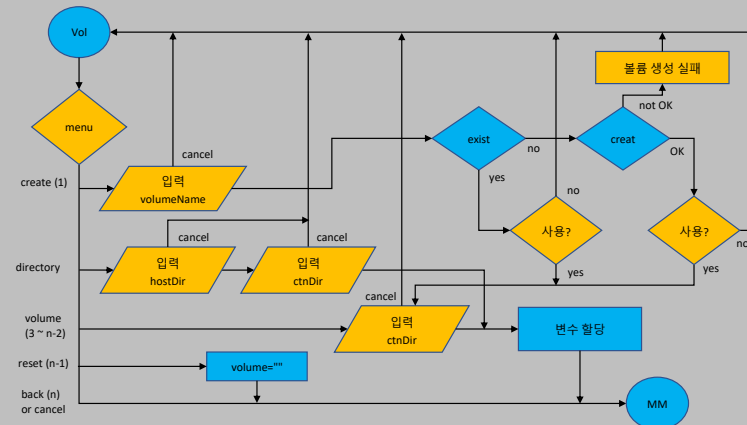

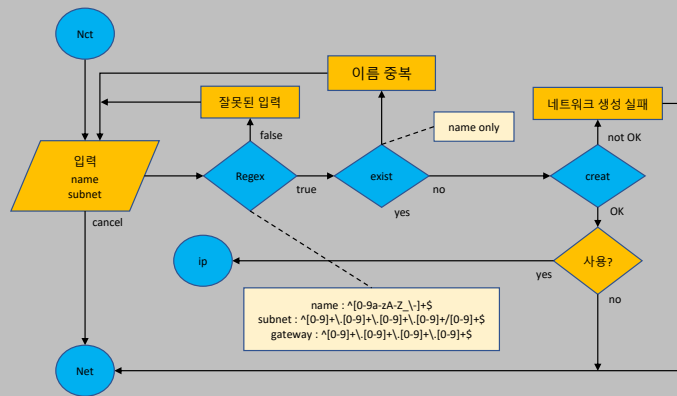

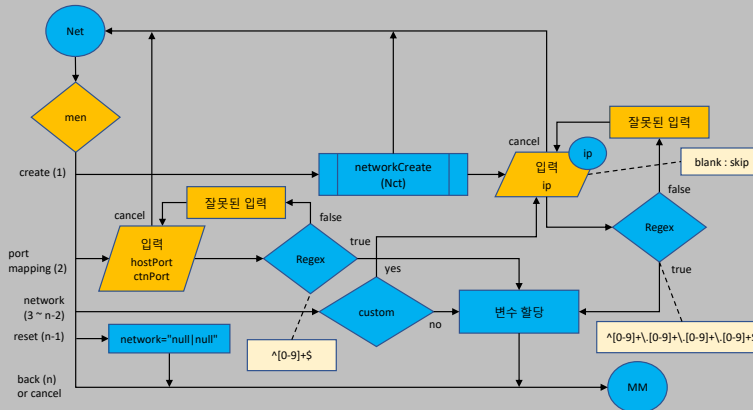

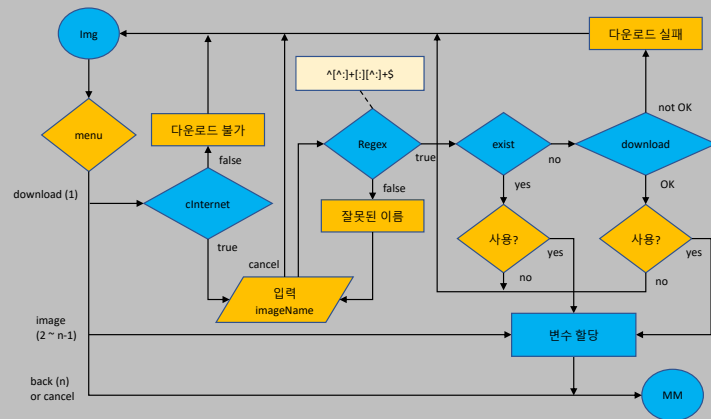

nginx container가 성공적으로 생성된 것을 볼 수 있습니다.
